EXPERIENCE

Associate UI Developer

Media.net (Directi) | May 2022 - Present | Mumbai (remote).

- Developed multiple ad variations, including Keyword Blocks, Search Engine Result Pages, Interstitial Ads, and Lander Pages, resulting in a **40% increase** in click-through rates and a 25% boost in conversion rates.
- Worked with Skenzo Template Language Tags which provides ads from the backend.
- Created Custom Snippets for our Dev team, which **minimized 30%** of our development time.
- Collaborated with the Business Development and QA teams to ensure **UI was implemented correctly**.
- Delivered 100+ performing **creative ads and lander pages** with a 95% acceptance rate for premium publishers.
- Developed quality ads during the **Black Friday & Cyber Monday** Sale Season, with trending ad designs.

PROJECTS

Headlines Hub. - a Short format news app ↗ | Angular, Tailwind, GNews API

- Headlines Hub is a minimal news app that provides users with a **seamless news browsing** experience.
- The app features a search functionality that allows users to find news articles on any given topic of interest quickly. Additionally, the app includes a **user-friendly navigation** menu that provides access to top headlines within specified categories.

Weatherly - a Weather forecast app ↗ | Angular, SASS, OpenWeather API

- Weatherly is a sophisticated weather app with a **clean and intuitive user interface**, designed to provide users with accurate and up-to-date weather information.
- The app enables users to access weather forecasts for their location and **other locations of interest**.

Task Tracker - Simple todo list app ↗ | Angular

- A to-do list app that helps users to organize and **prioritize their daily tasks**.
- The application helps users to effectively plan and manage their tasks, conveniently identifying important ones through **priority marks for easy recognition**.
